

SAFETY DATA SHEET

SDS # PBS06152018

Preparation Date: May 18, 2015
Updated: June 15 2018**1. PRODUCT AND COMPANY IDENTIFICATION**

Product Name:	Titanium Dioxide bound in an aqueous solution
Product Code:	PURETi Base™
Formula:	N/A - Mixture
Product Use:	Surface Coating

SUPPLIER INFORMATION:**Address:**PURETi Group LLC
10931 Reed Hartman Hwy, Unit C
Cincinnati, OH 45242**Phone Number:** 1-855-5PURETi
Email Address: info@pureti.com**2. HAZARDS IDENTIFICATION****GHS/CLP CLASSIFICATION AND LABELING FOR PRODUCT:**

CLP Status		
Pictogram	Classification	Signal Word and Hazard Statements
None	Not classified	None

EU (per EEC Directive 1999/45/EEC):
Danger
Symbols: None
Phrases: None**OSHA REGULATORY STATUS:** This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.122)

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

HAZARD RATINGS:

Hazardous Materials Identification System (HMIS):

Degree of hazard (0 = low, 4 = extreme)

Health: 0 Flammability: 0 Reactivity: 0 Personal Protection: None

LABEL ELEMENTS:

EMERGENCY OVERVIEW

Not Classified

Warning: Keep out of reach of children					
Appearance	Aqueous solution	Physical State	Liquid	Odor	odorless

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE: None known.

POTENTIAL ENVIRONMENTAL EFFECTS: None known.

Hazards not otherwise classified (HNOC) Not applicable

3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Wt%
Water	7732-18-5	99.5 – 100
Titanium dioxide (TiO ₂ bound in a stable aqueous product matrix)	13463-67-7	0.1 – 0.5

4. FIRST AID MEASURES

PROCEDURES

- Eye Contact: In case of contact, flush eyes with plenty of water for at least 15 minutes. If irritation persists, get medical attention.
- Skin Contact: In case of skin irritation or allergic reactions, get medical attention.
- Inhalation: If symptoms of lung irritation occur (coughing, wheezing or breathing difficulty), remove from exposure area to fresh air immediately. Get medical attention if condition persists.
- Ingestion: If swallowed, immediately give person large amounts of water. Get medical attention. Induce vomiting only if instructed by a physician.
- Note to Physicians: None known. Use general supportive care.

5. FIRE FIGHTING MEASURES

- Unusual Fire and Explosion Hazards: None known.
- Extinguishing Media: No restrictions. If there is fire close by, use media suitable for safely extinguishing other burning materials
- Special Firefighting Procedures: Cool closed containers exposed to fire with water spray.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:	Ensure adequate ventilation is provided. Prevent contact with skin and eyes.
Emergency Procedures:	Avoid contact with skin and eyes.
Methods and Materials for Containment:	Mop off spilled product and dispose according to good hygiene and safety practice.
Cleanup Procedures:	Refer to Section 13 for disposal considerations.

7. HANDLING AND STORAGE

Handling:	Transport in original container in accordance with good industrial hygiene and safety practice and in well-ventilated areas. Avoid contact with eyes and skin. No eating, drinking or smoking in areas where this product is handled, stored or processed. Keep container tightly closed when not in use.
Storage:	DO NOT FREEZE. Store at room temperature, protected from direct sunlight in a dry area. Keep container tightly closed and sealed until ready for use. Store in original packaging, plastic materials, stainless steel or glass. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.
Other Precautions:	None known

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits:

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH
Titanium dioxide 13463-67-7	TWA: 10 mg/m ³	TWA: 15 mg/m ³ total dust (vacated) TWA: 10 mg/m ³ total dust	IDLH: 5000 mg/m ³

Engineering Controls:	General exhaust ventilation (GEV) sufficient to maintain air concentrations below occupational safety standards.
Eye/Face Protection:	None required under normal use. If conditions exist that may result in prolonged direct exposure, wear safety glasses.
Skin Protection:	None required under normal use. If conditions exist that may result in prolonged direct contact with skin, wear gloves and long sleeve clothes.
Respiratory Protection:	None required under normal use. If conditions exist that may result in prolonged direct exposure and to concentrations higher than the applicable exposure limits, respiratory protection should be worn.
General Hygiene Considerations:	Handle in accordance with good hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Value	Property	Value
Appearance:	Light yellow translucent	Initial Boiling Point (°F):	No data
Odor:	No data	Boiling Range (°F):	No data
Odor Threshold:	No data	Melting/Freezing point (°F):	No data
Molecular Weight:	N/A – Mixture	Specific gravity (g/cc):	~1.0
Physical State:	Liquid	Viscosity (cps):	No data
pH:	6.0-8.5	Flash Point (°F):	Does not Flash
Vapor Pressure (mm Hg):	No data	Decomposition Temperature:	No data
Solubility in Water (20 °C):	Miscible with water	Flammability:	Not flammable
Volatiles, Percent by volume:	No data	Upper/Lower Flammability Limits:	Not flammable
Vapor Density (air = 1):	No data	Auto-ignition Temperature:	Not flammable
Evaporation Rate:	No data	Octanol/water partition coefficient:	No data

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of use. Stable at ambient temperature.

Reactivity: None known.

Conditions to Avoid: Freezing conditions.

Materials to Avoid: Substances that react with water and strong oxidizing agents.

Hazardous Decomposition Products: None known.

Hazardous Polymerization: Will not occur.

Hazardous Reaction Conditions: None known.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Product Information: Product does not present an acute toxicity hazard based on known/supplied information

Inhalation: As a nuisance dust, prolonged exposures of ultrafine TiO₂ powder above recommended levels may cause adverse effects on the lung

Eye contact: No data available

Skin contact: Titanium dioxide does not penetrate either intact or abraded human skin

Ingestion: No data available

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Titanium dioxide 13463-67-7	>5000 mg/kg (rat)	-	>6,82 mg/L (rat) 4 h

Information on toxicological effects

Symptoms: No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritation	Titanium dioxide was not classifiable as a skin corrosive or irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Serious eye damage/eye irritation	Titanium dioxide was not classifiable as an eye irritant based on in vivo test results for titanium dioxide submitted in the European Union (REACH) joint submission registration dossier for the substance.
Sensitization	No known effect based on information supplied
Germ Cell Mutagenicity	No known effect based on information supplied
Carcinogenicity	<p>Titanium dioxide in its solid fine powder form is listed by IARC as possibly carcinogenic to humans (Group 2B). However, the IARC monograph states that titanium dioxide bound to other products or matrix such as coatings and paint does not pose significant exposure risk. PURETi Base is an aqueous solution of bound titanium dioxide in a stable product matrix used as a surface coating, and is never in a powder form.</p> <p>The IARC listing is based on inadequate evidence of carcinogenicity in humans and evidence in only one experimental animal (Rat). In lifetime inhalation studies of rats, airborne respirable-size powder titanium dioxide particles have been shown to cause lung tumors at concentrations associated with substantial particle lung burdens and consequential pulmonary overload and inflammation. However, other laboratory animals such as mice and hamsters did not develop lung tumors under similar testing with titanium dioxide. Furthermore, human epidemiology studies do not suggest an association between occupational exposure to titanium dioxide and risk for cancer.</p> <p>NIOSH did not find sufficient data to classify titanium dioxide as a potential occupational carcinogen, and has set an REL of 0.3mg/m³ for ultra fine and 2.4 mg/m³ for fine titanium dioxide powder. Independent test by NIOSH found titanium dioxide concentrations below the set REL during application of PURETi products.</p> <p>Titanium Dioxide is not listed as a possible carcinogen by the National Toxicology Program (NTP), the American Conference of Governmental Industrial Hygienist (ACGIH), or the OSHA.</p>
Reproductive Toxicity	No known effect based on information supplied
STOT – single exposure	No known effect based on information supplied
STOT – repeated exposure	<p>Repeated inhalation exposures in rats to poorly soluble dusts such as titanium dioxide lead to a pattern of pulmonary effects including inflammation and fibrosis that are not observed in other rodent species, nonhuman primates, or humans under similar conditions.</p> <p>Therefore, titanium dioxide is not classifiable for repeated exposure.</p>
Aspiration Hazard	No known effect based on information supplied

Numerical Measures of toxicity

Unknown acute toxicity	No information available
------------------------	--------------------------

12. ECOLOGICAL INFORMATION

Ecotoxicity Effects: Titanium dioxide is of low acute aquatic toxicity

Persistence and degradability: Titanium dioxide is persistent and inert mineral product. Not degradable

Bioaccumulative potential: Does not bioaccumulate

Mobility: Solids from slurry will settle

13. DISPOSAL CONSIDERATIONS

Disposal Methods: Dispose of in accordance with local regulations. Discharging waste into rivers and drains is forbidden. Consult the manufacturer or supplier for information regarding recovery and recycling of the product.

Physical/chemical Properties that May Affect Disposal Activities: None known

Special Precautions for Landfills or Incineration Activities: Contaminated packages are not considered hazardous for disposal into sanitary landfill or industrial waste disposal landfill. Please review appropriate national and local waste regulations.

14. TRANSPORT INFORMATION

DOT:	Proper shipping name not regulated Class: None Packaging group: None
IMDG:	UN-Number: None Packaging group: None Proper shipping name not regulated Class: None
ICAO/IATA:	Class: None Packaging group: None Proper shipping name not regulated UN/ID No.: None

15. REGULATORY INFORMATION

Inventory Status: United States Toxic Substances Control Act Section 8(b) Inventory (TSCA)
European Inventory of Existing Commercial Chemical Substances (EINECS)

CERCLA: Not listed

CWA: Not listed

CAA: Not listed

RCRA: Not listed

SARA 313: Not listed

SARA 312 Hazard Class: Health: Acute – No
Chronic – No

Fire: No

Reactivity: No

Release of Pressure: No

SARA 302 EHS List: Not listed

US State Regulations:

Chemical Name	California Proposition 65
----------------------	----------------------------------

Titanium Dioxide 13463-67-7

Listed

Compliance with federal, provincial/state, and local environmental regulations is the responsibility of the owner.

16. OTHER INFORMATION

PRECAUTIONARY
STATEMENTS
(GHS/CLP):

Prevention
None
Response
None
Storage
None
Disposal
None
